

Open positions available at the Tzur lab to study fertility

DEPARTMENT
-OF GENETICS
TZUR LABORATORY
-המחלקה לגנטיקה-
מעבדת צור

THE ALEXANDER
SILBERMAN INSTITUTE
OF LIFE SCIENCES
המכון למדעי
החיים ע"ש
אלכסנדר סילברמן

THE HEBREW
UNIVERSITY
OF JERUSALEM
האוניברסיטה
העברית
בירושלים

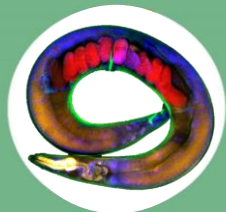

Using interdisciplinary approaches combining
genome engineering, transcriptomics
and functional assays, we study **various biological questions:**

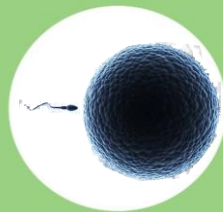

How

do lincRNAs
affect fertility?

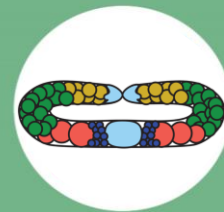

Which

signals control
oocyte quality?

What

dictates human
oocyte aging?

HOW

are germ stem
cells protected?

Talented and
motivated
candidates for
graduate students
and postdocs
are encouraged
to contact:

@LabTzur
